SWIFT MAKES PARD rich in meat proteins

Uniform nutrition in every single ounce. Here in Swift's laboratory, a nutritionist is making a "test" batch of Pard. This is one of the steps in the careful supervision of Pard that assures its high, uniform nutrition.

Every can of Pard is formulated to the exacting specifications of the Swift Research Laboratory. The result is a continuing uniformity in every respect . . . in nutrient content, taste, color, odor and texture.

Pard has been *proved* capable of sustaining optimum health by test feedings conducted on generation after generation of dogs in Swift's famous experimental kennels. On a strict diet of Pard and water, these dogs have shown excellent growth and maintenance. Reproduction normal. Irrefutable proof that Pard contains every known essential for nutritional health. Be safe! Feed and recommend rich, nutritious Pard—the complete "one-dish-dinner"!

Vol. 66, No. 5 May, 1949

The AMERICAN KENNEL CLUB STUD BOOK REGISTER
